

Curriculum Vitae

Name: Alexander von Gemmingen
Mobile: +49 151 688 47301
Email: alexander@gemmingen.de
Date of Birth: 12.03.2000

Education:

2012-2018 Canford School, Wimborne
2019-2023 CODE – University of Applied Sciences, Berlin
2023-2024 J国際学院, Osaka

Experience:

2017 SAP SE, Walldorf, Germany - Internship
2018 Spark 5 GmbH, Darmstadt, Germany - Internship
2018 LogMeln Germany GmbH, Karlsruhe, Germany – Internship
2018 Silvio Renke Real Estate Management, Garmisch-Partenkirchen, Germany - Internship
2021-2023 FINAD Financial Advisors, Zürich, Switzerland – Freelance
2024-2025 株式会社ロックシステム, Osaka – Software Engineer

Projects:

- Pog.Network (Rust):
A climate neutral blockchain and cryptocurrency
 - Implemented through a Block-Lattice structure to maintain order
 - Uses “Delegated Proof-of-Importance” as a consensus algorithm
 - End-to-end testing using Docker containers
- Unearthing the Past: (JavaScript, Typescript, Python):
A study on Utilizing Web Scraping Techniques to Generate an Artifact Dataset or Accurate Dating using Machine Learning Algorithms
 - Web Scraper website that allows a user to add websites, and change hyper parameters easily
 - Web Scraper that collects data and creates a dataset to be used with a Machine Learning model
 - Python Machine Learning experiments to improve performance
- Nand2Tetris (DLL, Assembly, F#):
Nand2Tetris simulates building a PC from scratch starting at a Nand gate.
 - DLL is used to simulate logic gates and computer chips
 - F# scripts map Assembly Code (ASM) to Hack Code and map VM Code to Assembly Code

Languages:

- German: native
- English: fluent
- Japanese: JLPT N3
